

Annual Management Report of Fund Performance

AGF Canadian Growth Equity Fund

September 30, 2023

Management Discussion of Fund Performance

This management discussion of fund performance represents the portfolio management team's view of the significant factors and developments affecting the fund's performance and outlook.

Investment Objective and Strategies

Pursuant to the Declaration of Trust, the investment objective of AGF Canadian Growth Equity Fund (the "Fund") is to provide capital growth by investing primarily in shares of Canadian companies that are expected to profit from future economic growth. The Fund may also invest in foreign securities, which are typically not expected to exceed 49% of the Net Asset Value (see Explanatory Note (1) a)) of the Fund at the time of purchase. AGF Investments Inc. ("AGFI"), as portfolio manager, uses a bottom-up growth investment style focusing on companies that it believes may exhibit superior growth potential. In bottom-up investing, the portfolio manager focuses attention on a specific company rather than on the industry in which that company operates or on the economy as a whole. When evaluating companies, the portfolio manager looks for key characteristics including strong management, above-average growth, financial strength and attractive valuations. During periods of market downturn or for other reasons, a significant portion of the Fund's assets may be held in cash, cash equivalents or fixed income securities.

Risk

The risks of investing in the Fund remain as disclosed in the current prospectus. Any changes to the Fund over the period have not affected the overall level of risk of the Fund.

The Fund continues to be suitable for investors investing for the longer term, seeking the growth potential of equity securities through a mix of small, medium and large capitalization Canadian companies and who have a medium tolerance for risk. The suitability of the Fund has not changed from what has been disclosed in the prospectus.

Results of Operations

The Fund commenced operations in July 2023.

Recent Developments

Global equities rallied strongly during the reporting period despite facing significant uncertainty and volatility, as central banks continued to fight inflationary pressures with tighter financial conditions. Furthermore, China's faltering economic recovery and a short-lived banking crisis added to the uncertainty. Companies with exposure to artificial intelligence ("AI") and large-language models led a significant market rally, though this was limited to a very narrow group of stocks from January to May 2023. However, market breadth started to widen in the final four months of

the reporting period as rising real interest rates negatively impacted longer duration equities, which included many technology-focused companies. Long duration equities (often growth-oriented companies) are expected to produce their highest cash flows in the future and thus more sensitive to interest rate changes. The U.S. Federal Reserve hiked policy rates six times during the reporting period; however, it paused its rate hiking cycle at the September 2023 meeting to assess the lagged effects of rate hikes on the economy as inflationary pressures modestly eased. Elsewhere, core inflation in Europe and the UK remained sticky through the reporting period. Furthermore, Russia backed out of the Black Sea grain trade agreement in July 2023, reviving concerns about global food inflation.

During the second calendar quarter of 2023, Canada's economy stalled, failing to build on the momentum from the previous quarter. The Bank of Canada ("BoC") paused its rate hiking cycle in February after inflation continued its steady decline until June. However, the BoC hiked rates at its July meeting after inflation spiked for the month. Unemployment remained unchanged from the previous month at 5.5% in August, the highest since September 2022. Wage gains remained solid, supported by resilient job growth in the economy. However, the housing crisis due to significantly higher mortgage rates and the delay of the multi-billion dollar clean technology tax credits added to investor concerns. Towards the end of the reporting period, merchandise trade rebounded as exports of gold to the U.S. and higher crude oil prices exceeded imports, resulting in a positive trade balance in September 2023.

The S&P/TSX Composite Index climbed 9.5% during the year ended September 30, 2023. Information Technology, Energy and Consumer Discretionary were the top three performing sectors in the index during the period, while Utilities, Communication Services and Real Estate were the bottom three sectors. Large capitalization equities out-performed small capitalization equities during the period, while growth stocks out-performed value stocks.

The portfolio manager continues to believe Canadian equity markets will remain well-positioned in the current volatile environment. As inflation remained elevated, the BoC hiked rates in July 2023 but refrained from hiking again at its September meeting. Even in the current inflationary environment, the portfolio manager believes the investment narrative should continue to improve and provide a better backdrop for equities.

The portfolio manager continues to focus on companies with low leverage and higher visibility. Growth companies present a good opportunity in the near future and the portfolio manager will look to capitalize on investment opportunities when they arise. The portfolio manager believes its higher

This annual management report of fund performance contains financial highlights, but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling 1 800 268-8583, by writing to us at AGF Investments Inc., CIBC SQUARE, Tower One, 81 Bay Street, Suite 4000, Toronto, Ontario, Canada M5J 0G1 attention: Client Services, or by visiting our website at www.agf.com or SEDAR at www.sedar.com.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

quality and diversified approach can help protect the Fund's portfolio during periods of elevated uncertainty and volatility in global equity markets.

Related Party Transactions

AGFI is the manager ("Manager") and trustee of the Fund. Pursuant to the management agreement between the Fund and AGFI, AGFI is responsible for the day-to-day business of the Fund. AGFI also acts as the investment (portfolio) manager, managing the investment portfolio of the Fund. Under the management agreement, the Fund (except for Series I, Series O, Series Q and Series W Units, if applicable) pays management fees, calculated based on the Net Asset Value of the respective series of the Fund. The Fund has not yet incurred any management fees during the period ended September 30, 2023, as all issued units of the Fund were held by the Manager during the reporting period.

All of the operating expenses relating to the operation of the Fund (except for certain costs as disclosed in the current prospectus) are paid directly by AGFI and in exchange, a fixed rate administration fee is payable by the Mutual Fund Series, Series F and Series I Units, as applicable, of the Fund. The administration fee is calculated based on the Net Asset Value of the respective series of the Fund at a fixed annual rate, as disclosed in the current prospectus. Administration fees of approximately \$600 were incurred by the Fund during the period from commencement of operations to September 30, 2023.

AGFI is an indirect wholly-owned subsidiary of AGF Management Limited.

Caution Regarding Forward-looking Statements

This report may contain forward-looking statements about the Fund, including its strategy, expected performance and condition. Forward looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates" or negative versions thereof and similar expressions.

In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Fund action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and economic factors.

The forward-looking statements are by their nature based on numerous assumptions, which include, amongst other things, that (i) the Fund can attract and maintain investors and has sufficient capital under management to effect its investment strategies, (ii) the investment strategies will produce the results intended by the portfolio manager, and (iii) the markets will react and perform in a manner consistent with the investment strategies. Although the forward-looking statements contained herein are based upon what the

portfolio manager believes to be reasonable assumptions, the portfolio manager cannot assure that actual results will be consistent with these forward-looking statements.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, global equity and capital markets, business competition, taxation, changes in government regulations, unexpected judicial or regulatory proceedings, technological changes, cybersecurity, the possible effects of war or terrorist activities, outbreaks of disease or illness that affect local, national or international economies (such as COVID-19), natural disasters and disruptions to public infrastructure, such as transportation, communications, power or water supply or other catastrophic events.

It should be stressed that the above-mentioned list of factors is not exhaustive. You are encouraged to consider these and other factors carefully before making any investment decisions and you are urged to avoid placing undue reliance on forward-looking statements. Further, you should be aware of the fact that the Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the past five years as applicable.

Mutual Fund Units - Net Assets per Unit⁽¹⁾

For the periods ended	Sept 30, 2023 (\$)	Sept 30, 2022 (\$)	Sept 30, 2021 (\$)	Sept 30, 2020 (\$)	Sept 30, 2019 (\$)

Explanatory Notes

(1) a) This information is derived from the Fund's audited annual financial statements. Under International Financial Reporting Standards ("IFRS"), investments that are traded in an active market are generally valued at closing price, which is determined to be within the bid-ask spread and most representative of fair value. As a result, there is no difference between the net assets per unit presented in the financial statements ("Net Assets") and the net asset value per unit calculated for fund pricing purposes ("Net Asset Value").

b) The following series of the Fund commenced operations on the following dates, which represents the date upon which securities of a series were first made available for purchase by investors.

Mutual Fund Units	July 2023
Series F Units	July 2023
Series I Units	July 2023

(2) Net Assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial period.

(3) Distributions were paid in cash/reinvested in additional units of the Fund, or both. The computation of the distributions per unit does not take into account the management fee distributions, if applicable (see note 5 below). The characterization of the distributions is based on management's estimate of the actual income for the year.

(4) This is not a reconciliation of the beginning and ending Net Assets per unit.

(5) The management expense ratio ("MER") of a particular series is calculated in accordance with National Instrument 81-106, based on all the expenses of the Fund (including Harmonized Sales Tax, Goods and Services Tax and interest, but excluding foreign withholding taxes, commissions and other portfolio transaction costs) and the Fund's proportionate share of the MER, if applicable, of the underlying funds and exchange traded funds ("ETFs") in which the Fund has invested, allocated to that series, expressed as an annualized percentage of average daily Net Asset Value of that series during the period. For new series launched during the period, the MER is annualized from the date of the first external purchase.

AGFI may reduce the effective management fee payable by some unitholders by reducing the management fee it charges to the Fund and directing the Fund to make

* represents initial Net Assets

(1), (2), (3), (4), (5), (6), (7) and (8) see Explanatory Notes

management fee distributions to these unitholders in amounts equal to the amounts of the management fee reduction. The MER does not take into account the reduction in management fees due to management fee distributions to unitholders.

- (6) AGFI waived certain fees or absorbed certain expenses otherwise payable by the Fund. The amount of expenses waived or absorbed is determined annually on a series by series basis at the discretion of AGFI and AGFI can terminate the waiver or absorption at any time.
- (7) The trading expense ratio represents total commissions and other portfolio transaction costs, including the Fund's proportionate share of the commissions, if applicable, of the underlying funds and ETFs in which the Fund has invested, expressed as an annualized percentage of average daily Net Asset Value during the period.
- (8) The Fund's portfolio turnover rate ("PTR") indicates how actively the Fund's portfolio advisor manages its portfolio investments. A PTR of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a fund's PTR in a year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

PTR is calculated based on the lesser of the cumulative cost of purchases or cumulative proceeds of sales divided by the average market value of the portfolio, excluding short-term investments.

Management Fees

The Fund is managed by AGFI. As a result of providing investment and management services, AGFI receives a monthly management fee, based on the Net Asset Value of the respective series, calculated daily and payable monthly. Management fees in respect of Series I, Series O, Series Q and Series W Units, if applicable, are arranged directly between the Manager and investors and are not expenses of the Fund. AGFI uses these management fees to pay for sales and trailing commissions to registered dealers on the distribution of the Fund's units, investment advice, as well as for general administrative expenses such as overhead, salaries, rent, legal and accounting fees relating to AGFI's role as manager. The Fund has not yet incurred any management fees for the period ended September 30, 2023, as all issued units of the Fund were held by the Manager during the reporting period.

	As a percentage of management fees		
	Annual rates	Dealer compensation	General administration and investment advice
Mutual Fund Units	1.80%	-	100.00%
Series F Units	0.80%	-	100.00%

Past Performance

It is AGFI's policy to report rates of return for a fund in existence greater than one year. The Fund commenced operations in July 2023.

Summary of Investment Portfolio

As at September 30, 2023

The major portfolio categories and top holdings (up to 25) of the Fund at the end of the period are indicated in the following tables. The Summary of Investment Portfolio may change due to ongoing portfolio transactions of the Fund and the next quarterly update will be in the Quarterly Portfolio Disclosure as at December 31, 2023.

Portfolio by Country	Percentage of Net Asset Value (%)
Canada	94.6
