

Interim Management Report of Fund Performance

AGF Floating Rate Income Fund

March 31, 2023

Management Discussion of Fund Performance

This management discussion of fund performance represents the portfolio management team's view of the significant factors and developments affecting the fund's performance and outlook.

Results of Operations

For the six months ended March 31, 2023, the Mutual Fund Units of AGF Floating Rate Income Fund (the "Fund") returned 5.8% (net of expenses) while the Morningstar LSTA Leveraged Loan CAD-Hedged Index returned 5.9%. The performance of the other series of the Fund is substantially similar to that of the Mutual Fund Units, save for differences in expense structure. Refer to "Past Performance" section for performance information of such series.

On an expense-adjusted basis, the Fund out-performed the Morningstar LSTA Leveraged Loan CAD-Hedged Index. Security selection within leveraged loans held in the portfolio contributed to performance, as did an out-of-benchmark allocation to high yield bonds. From an industry perspective, Health Care Equipment & Services, Semiconductors & Semiconductor Equipment and Telecommunication Services contributed the most to performance due to security selection. On the other hand, security selection in Commercial & Professional Services, Insurance and Energy detracted the most relative to the benchmark. By rating, B-, B and BB- rated names contributed to out-performance due to security selection, while security selection within Not Rated, CCC+, and BBB- rated names detracted the most.

In terms of positioning, the Fund has increased its allocation to high yield bonds over the reporting period. This increase in exposure has been counteracted by commensurate decreases in leveraged loans and cash exposure during the period. Year-to-date, high yield bonds have out-performed leveraged loans, with the ICE BofA US High Yield Index (USD) returning 3.7% through March 2023, while the Morningstar LSTA Leveraged Loan Index (USD) has returned 3.2% over the same period. This comes after high yield bonds under-performed leveraged loans in calendar year 2022 by a wide margin.

In terms of sector allocation, the Fund increased its exposure to Financials, Chemicals and Housing over the reporting period and decreased its exposure to Retail, Aerospace and Metals/Minerals.

The Fund's foreign exchange positioning detracted from performance over the reporting period. Its exposure to the U.S. dollar ranged from 20.0% to 40.0% during the period where the U.S. dollar fell 2.2% against the Canadian dollar. The depreciation of the U.S. dollar against the Canadian

dollar was largely due to expectations that central bank tightening in the U.S. was nearing its peak and would soon need to turn to loosening as its economy slowed down. This was in the context of global economic conditions remaining resilient.

The Fund entered into foreign exchange forward contracts during the period under review. As of March 31, 2023, the Fund was long Canadian dollar and short U.S. dollar in order to hedge its currency exposure.

Certain series of the Fund, as applicable, make monthly distributions at a rate determined by AGF Investments Inc. ("AGFI") from time to time. If the aggregate amount of the monthly distributions made to a series in a year exceeds the portion of the net income and net realized capital gains allocated to such series, the excess will constitute a return of capital. The portfolio manager does not believe that the distributions made by the Fund had a meaningful impact on the Fund's ability to implement its investment strategy or to fulfill its investment objectives.

The Fund had net redemptions of approximately \$16 million for the current period, as compared to net redemptions of approximately \$83 million for the prior period. The portfolio manager does not believe that redemption activity had a meaningful impact on the Fund's performance or the ability to implement its investment strategy.

Total expenses before foreign withholding taxes, commissions and other portfolio transaction costs vary period over period mainly as a result of changes in average Net Asset Values (see Explanatory Note (1) a)) and investor activity, such as number of investor accounts and transactions. The decrease in management fees accounted for most of the decrease in expenses during the period as compared to the previous period due to a decrease in average Net Asset Values. Unitholder servicing and administrative fees also decreased during the period as a result of decreased average Net Asset Values. The increases in audit fees and custodian fees and decrease in independent review committee fees were due to variances between the accrued amounts versus the actual expenses incurred in the previous period. All other expenses remained fairly consistent throughout the periods.

Recent Developments

The market has started the calendar year on a positive note, with the benchmark up 3.2% for the first calendar quarter of 2023. This is partially driven by elevated cash balances across the market, as is common at year-end, due to paydowns, amortization and lack of new issue. In the portfolio manager's view, this seems like a technicals driven rally and as such, the portfolio manager is aiming to purchase shorter dated maturities of performing credits given the likelihood of

This interim management report of fund performance contains financial highlights, but does not contain either the interim or annual financial statements of the investment fund. You can get a copy of the interim or annual financial statements at your request, and at no cost, by calling 1 800 268-8583, by writing to us at AGF Investments Inc., CIBC SQUARE, Tower One, 81 Bay Street, Suite 4000, Toronto, Ontario, Canada M5J 0G1 attention: Client Services, or by visiting our website at www.agf.com or SEDAR at www.sedar.com.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

a refinancing, strong fundamental credits with attractive yields and companies which are trading at a discount due to ratings or downgrade concerns. The portfolio manager intends to continue its focus on investments in stable credits, but supplement those with loans which are believed to have an attractive risk-reward profile and limited likelihood of default. While the portfolio manager does continue to focus on the same sectors as previously (Software, Services and Financials), the portfolio manager may see attractive opportunities in more cyclical sectors that may be inflecting and look favorable after coming off peak earnings and tight trading levels.

Credit Suisse Asset Management, LLC is one of the portfolio managers of the Fund. Effective March 19, 2023, Credit Suisse Group AG ("Credit Suisse") and UBS Group AG ("UBS") have entered into a merger agreement with UBS being the surviving entity. After negotiations took place leading up to the signing of the merger agreement, UBS and Credit Suisse concluded that it would be in the best interest of their shareholders and their stakeholders to enter into the merger. This move comes after the Swiss Federal Department of Finance, the Swiss National Bank and FINMA asked both companies to conclude the transaction to restore necessary confidence in the stability of the Swiss economy and banking system.

Related Party Transactions

AGFI is the manager ("Manager") and trustee of the Fund. Pursuant to the management agreement between the Fund and AGFI, AGFI is responsible for the day-to-day business of the Fund. AGFI acts either as the investment (portfolio) manager itself or hires an external investment manager to manage the investment portfolio of the Fund. Under the management agreement, the Fund (except for Series I, Series O, Series Q and Series W Units, if applicable) pays management fees, calculated based on the Net Asset Value of the respective series of the Fund. Management fees of approximately \$309,000 were incurred by the Fund during the six months ended March 31, 2023.

Certain operating expenses relating to registrar and transfer agency services are paid directly by AGFI and in exchange, a fixed rate administration fee is payable by the Mutual Fund Series, Series F, Series FV, Series I, Series T and Series V Units, as applicable, of the Fund. The administration fee is calculated based on the Net Asset Value of the respective series of the Fund at a fixed annual rate, as disclosed in the current prospectus. Administration fees of approximately \$29,000 were incurred by the Fund during the six months ended March 31, 2023.

AGFI is an indirect wholly-owned subsidiary of AGF Management Limited.

Caution Regarding Forward-looking Statements

This report may contain forward-looking statements about the Fund, including its strategy, expected performance and condition. Forward looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as

"expects", "anticipates", "intends", "plans", "believes", "estimates" or negative versions thereof and similar expressions.

In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Fund action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and economic factors.

The forward-looking statements are by their nature based on numerous assumptions, which include, amongst other things, that (i) the Fund can attract and maintain investors and has sufficient capital under management to effect its investment strategies, (ii) the investment strategies will produce the results intended by the portfolio manager, and (iii) the markets will react and perform in a manner consistent with the investment strategies. Although the forward-looking statements contained herein are based upon what the portfolio manager believes to be reasonable assumptions, the portfolio manager cannot assure that actual results will be consistent with these forward-looking statements.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, global equity and capital markets, business competition, taxation, changes in government regulations, unexpected judicial or regulatory proceedings, technological changes, cybersecurity, the possible effects of war or terrorist activities, outbreaks of disease or illness that affect local, national or international economies (such as COVID-19), natural disasters and disruptions to public infrastructure, such as transportation, communications, power or water supply or other catastrophic events.

It should be stressed that the above-mentioned list of factors is not exhaustive. You are encouraged to consider these and other factors carefully before making any investment decisions and you are urged to avoid placing undue reliance on forward-looking statements. Further, you should be aware of the fact that the Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the six months ended March 31, 2023 and the past five years as applicable.

Mutual Fund Units - Net Assets per Unit⁽¹⁾

(1), (2), (3), (4), (5), (6), (7) and (8) see Explanatory Notes

Explanatory Notes

(1) a) This information is derived from the Fund's audited annual financial statements and unaudited interim financial statements. Under International Financial Reporting Standards ("IFRS"), investments that are traded in an active market are generally valued at closing price, which is determined to be within the bid-ask spread and most representative of fair value. As a result, there is no difference between the net assets per unit presented in the financial statements ("Net Assets") and the net asset value per unit calculated for fund pricing purposes ("Net Asset Value").

b) The following series of the Fund commenced operations on the following dates, which represents the date upon which securities of a series were first made available for purchase by investors.

Mutual Fund Units	May 2012
Series F Units	May 2012
Series FV Units	November 2018
Series O Units	September 2012
Series Q Units	September 2013
Series T Units	May 2012
Series V Units	May 2012
Series W Units	June 2014

(2) Net Assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial period.

(3) Distributions were paid in cash/reinvested in additional units of the Fund, or both. The computation of the distributions per unit does not take into account the management fee distributions (see note 5 below). The characterization of the distributions is based on management's estimate of the actual income for the year.

(4) This is not a reconciliation of the beginning and ending Net Assets per unit.

(5) The management expense ratio ("MER") of a particular series is calculated in accordance with National Instrument 81-106, based on all the expenses of the Fund (including Harmonized Sales Tax, Goods and Services Tax and interest, but excluding foreign withholding taxes, commissions and other portfolio transaction costs) and the Fund's proportionate share of the MER, if applicable, of the underlying funds and exchange traded funds ("ETFs") in which the Fund has invested, allocated to that series, expressed as an annualized percentage of average daily Net Asset Value of that series during the period. For new series launched, the MER is annualized from the date of the first external purchase.

AGFI may reduce the effective management fee payable by some unitholders by reducing the management fee it charges to the Fund and directing the Fund to make management fee distributions to these unitholders in amounts equal to the amounts of the management fee reduction. The MER does not take into account the reduction in management fees due to management fee distributions to unitholders.

(6) AGFI waived certain fees or absorbed certain expenses otherwise payable by the Fund. The amount of expenses waived or absorbed is determined annually on a series by series basis at the discretion of AGFI and AGFI can terminate the waiver or absorption at any time.

(7) The trading expense ratio represents total commissions and other portfolio transaction costs, including the Fund's proportionate share of the commissions, if applicable, of the underlying funds and ETFs in which the Fund has invested, expressed as an annualized percentage of average daily Net Asset Value during the period.

(8) The Fund's portfolio turnover rate ("PTR") indicates how actively the Fund's portfolio advisor manages its portfolio investments. A PTR of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a fund's PTR in a year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

PTR is calculated based on the lesser of the cumulative cost of purchases or cumulative proceeds of sales divided by the average market value of the portfolio, excluding short-term investments.

Management Fees

The Fund is managed by AGFI. As a result of providing investment and management services, AGFI receives a monthly management fee, based on the Net Asset Value of the respective series, calculated daily and payable monthly. Management fees in respect of Series I, Series O, Series Q and Series W Units, if applicable, are arranged directly between the Manager and investors and are not expenses of the Fund. AGFI uses these management fees to pay for sales and trailing commissions to registered dealers on the distribution of the Fund's units, investment advice, as well as for general administrative expenses such as overhead, salaries, rent, legal and accounting fees relating to AGFI's role as manager.

	As a percentage of management fees		
	Annual rates	Dealer compensation	General administration and investment advice
Mutual Fund Units	1.45%	36.19%	63.81%
Series F Units	0.65%	-	100.00%
Series FV Units	0.65%	-	100.00%
Series T Units	1.45%	36.25%	63.75%
Series V Units	1.45%	34.27%	65.73%

Past Performance*

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional securities of the Fund. Note that the performance information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

It is AGFI's policy to report rates of return for series in existence greater than one year. The performance start date for each series represents the date of the first purchase of such series, excluding seed money.

All rates of return are calculated based on the Net Asset Value.

Year-By-Year Returns

The following bar charts show the Fund's annual performance for each of the past 10 years to September 30, 2022 (interim performance for the six months ended March 31, 2023) as applicable, and illustrate how the Fund's performance has changed from year to year. The charts show, in percentage terms, how much an investment made on the first day of each financial period would have grown or decreased by the last day of each financial period.

Mutual Fund Units

Series F Units

Series FV Units

Performance for 2022 represents returns for the period from January 13, 2022 to September 30, 2022.

Series O Units

Series Q Units

Performance for 2013 represents returns for the period from September 25, 2013 to September 30, 2013.

Series T Units

* The indicated rates of return shown here are the historical returns including changes in security value and reinvestment of all distributions and do not take into account sales, redemption, distribution or other optional charges by any securityholder that would have reduced returns or performance. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated.

Series V Units

Series W Units

Performance for 2014 represents returns for the period from July 18, 2014 to September 30, 2014.

Summary of Investment Portfolio

As at March 31, 2023

The major portfolio categories and top holdings (up to 25) of the Fund at the end of the period are indicated in the following tables. The Summary of Investment Portfolio may change due to ongoing portfolio transactions of the Fund and the next quarterly update will be in the Quarterly Portfolio Disclosure as at June 30, 2023.

Portfolio by Sector	Percentage of Net Asset Value (%)
